

CSIT214 IT Project Management Lab 3

In-class exercise

The following exercise is a continuation based on the project that you have created in Lab 2.

1. Add the following new resources
Room, type=Material and standard rate = \$2500, accrual=end.
2. Assign this resource to a task. What is the revised project cost?
3. Sharon Salavaria is given an increase in salary; her standard rate is now \$200/hour, what is the revised project cost?
4. Click on Resource Usage view. What does it show?
5. Select RBS view. What does it show?
6. Select Histogram view. Click on the various resource filters. Are any of the resources overloaded?

Lab exercise due for marking by the end of the lab (2 marks)

- a) Prepare a project plan and assign the resources to the project. What are the project cost and project duration? (0.5 marks)
